Drawings

1. The drawing of figure 5, was received on 10/6/06. The drawing is approved.
The changes to the specification of page 9 to describe figure 5 is also approved.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sam Korde on 12/20/06.

The application has been amended as follows:

Cancel claims 1-8, 10-21, 23-24.

Claim 22 line 14 before "receiving the flanges", insert ---- positioning substantially along the entire length of the flanges for ----

Line 10, delete [the]

Line 16, after "retaining member " insert ---- such that the panels are positioned above the retaining member ---

Line 4 from bottom, replace [may be] with --- is ---

Allowable Subject Matter

2. Claim 22 is allowed.
3. The following is an examiner's statement of reasons for allowance: prior art does not show the system having a plurality of covering panels each having a pair of opposed longitudinal flanges, a pair of lips, each flange having a plurality of locking members protruding from an interior side thereof, each locking member is sloped, a plurality of retaining members each having an pair of opposed side walls, a top wall connected to each side wall, an angled interior wall connected to each top wall and extending toward each other to form a slot therebetween which substantially extends along the retaining member's entire length and is configured for positioning substantially along the entire length of the flanges for receiving the flanges and interlocking with the locking members such that the panels are positioned above the retaining member, the retaining member having a pair of raised lips slidably received by a pair of opposed grooves of a mounting structure, the walls forming a drainage channel positioned below the slot configured for receiving any drainage matter passing through the slot, the mounting structure each having a mounting aperture to allow the mounting structure to be secured to a surface in combination with other claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art shows different panel attachment systems.
